Letter of Reference – Predator Drilling Inc.

To Whom It May Concern,

Crescent Point Energy has a relationship with Predator Drilling that started in 2013 and we have had them work on several projects, including an over 50 well projects for us in the Viking resource area in West Central Saskatchewan. We have used them to complete pre-set drilling programs within this area with excellent results, in terms of improved efficiencies with our surface casing.

Predator Drilling maintains a steadfast level of professionalism and integrity in everything they do. Their positive, eager attitude and track record of handling various challenges that arise during the surface portion of the well makes the operation advantageous. This has proven to offer us significant value in terms of being able to successfully save us money. They have the ability to control expenditures without compromising on quality or safety is commendable.

Predator's workforce is engaged, efficient and focused on the safety of everyone on site. In my mind, their day to day drilling operations are a reflection of their culture and what I understand to be their core values of Safety, Performance Excellence, Accountability and Teamwork. Our partnership with Predator Drilling has elevated our expectations. I would not hesitate to recommend Predator Drilling and look forward to our continued relationship.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Chris Kissick', written in a cursive style.

Chris Kissick, P.Eng.

Drilling Engineer
