Letter of Reference – Predator Drilling Inc.

To Whom It May Concern,

Husky Energy has had a working relationship with Predator Drilling since the winter of 2014 when we utilized their drilling rigs on our Sunrise Energy Project in the oil sands area. My team was responsible for the winter drilling program where Predator drilled our observation and disposal wells, with very successful results in terms of efficiency and safety.

Predator Drilling demonstrated a consistent level of versatility, professionalism and service quality in the work they provided. A level of pride from their management to the crews was witnessed and demonstrated with the maintenance and operation of their equipment. They have experienced and well led crews and highly organized, safe and efficient operations. Our results were directly related to their high level of performance.

It is my opinion that their day to day drilling operations are a reflection of their culture and what I understand to be their core values of Safety, Accountability, Team Work and Performance Excellence. I would not hesitate in recommending Predator Drilling for core hole drilling services or utilizing them for future Husky projects.

Sincerely,

A handwritten signature in black ink, appearing to read "Shaun Zimmer", written over a horizontal line.

Shaun Zimmer

Manager, Oil Sands Drilling & Completions

Husky Energy Inc.
