To Whom It May Concern:

Re: Predator Drilling

Predator Drilling Inc. (Predator), is a prime contractor that falls under my direct responsibility as Drilling Superintendent for Suncor Energy Inc. Currently, Predator has three rigs operating within our Meadow Creek / Fire Bag locations. Predator's pre-season training program has proven to be a valuable contributor to ensuring competent crews and well maintained equipment. Their training program assists in ensuring a safe, consistent, well run operation in a condensed drilling window and a weather dependent market.

As an important and key player in the overall drilling operations, Predator has continued to excel – proving to be a Solution's Driven Company. They have embraced training of their crews with the goal of meeting or exceeding Suncor's commitment to Safety, Quality, Cost and Schedule. Predator employees, involved with this project, continue to demonstrate a willingness to operate as a high performing team. They are efficient and cost effective while remaining safe.

Predator has a culture that is firmly ingrained in all employees, their core values of - Accountability, Safety, Teamwork, and Performance Excellence are, in my opinion, a large part of their success in offering unsurpassed service. I do not hesitate to offer my endorsement of this company.

Sincerely,

**Mike Krooshoop**
